Health

Safety

EHS Policy

Isgec Heavy Engineering Ltd. (Isgec) is committed to be environment friendly and occupational health conscious by following safety practices in compliance with applicable legal and other requirements.

In its endeavour to meet these objectives, Isgec affirms its commitment to create, maintain and spread a culture of continual improvement that involves all the employees located in its offices & sites across the globe so as to ensure safe and hazard free work conditions.

Isgec will proactively take the initiative to protect the environment from harm and degradation including climate change mitigation and energy conservation etc.

To prevent injury and ill health, Isgec will ensure compliance with the applicable laws by setting objectives, procedures and regular monitoring of the same for continual improvement.

Isgec will impart appropriate training to ensure awareness on environmental and safety systems, procedures, best practices and on shared responsibilities towards environment protection among stakeholders i.e. employees, customers, suppliers, contractors and other associates.

Isgec will take necessary steps to ensure enhanced awareness of this policy amongst stakeholders.
