## **ISGEC BAGS ORDER FOR THE 100<sup>th</sup> UNIT OF CFBC BOILER**

**June 22, 2021 - Noida:** Isgec is proud to have crossed the impressive milestone of 100 CFBC Boilers. These Boilers cut across a wide spectrum of industries and sectors.

Isgec has achieved this milestone based on its long history of providing appropriate and technologically advanced solutions to customers across a diverse portfolio of engineering sectors. The credit, in this particular case, also goes to our ongoing technical collaboration with Sumitomo SHI FW (formerly Foster Wheeler).

Sumitomo SHI FW has supplied Ultra-supercritical CFBC boilers for the 2200 MWe project at KOSPO in Samcheok, Korea. This plant has 4 x 1570 TPH ultra-supercritical CFBC Boilers, that have now been in operation for over 3 years.

The CFBC technology offered is state-of-the-art and regarded as the latest generation technology that offers customers benefits in terms of Low Maintenance, Higher Availability, Higher Efficiency, Low LOI in Ash, and a wide range of fuel firing capabilities. The technology is proven to efficiently burn a wide variety of solid fuels such as low ash imported coals, high sulphur petroleum coke, high ash Indian coals, dolochar, washery rejects, high moisture lignite, and biomass.

This technology also proves to be ideal for controlling emissions. This is mainly due to the optimum and uniform combustion temperature by continuous ash re-circulation. Hence it ensures better Sulphur capture and NOx reduction.

Isgec is a well-established company that has been setting up Industrial and Green Energy Boilers for companies across the globe. So far Isgec has supplied more than 850 Boilers for various fuels and fuel combinations which include CFBC, AFBC, Oil & Gas, Bagasse and Biomass, HRSG, Waste Heat Recovery, Distillery Waste / Slop, and Waste to Energy.

### **About Isgec Heavy Engineering Ltd.**

Isgec Heavy Engineering Ltd. is a diversified heavy engineering company engaged in manufacturing and project businesses with an extensive global presence. In operation for the past 88 years, it provides state-of-the-art, sustainable engineering solutions, with customers & projects spread across 91 countries. Isgec manufactures Process Equipment, Presses, Iron & Steel Castings, and Boiler Pressure Parts. Isgec's EPC portfolio includes turnkey projects for

setting up Air Pollution Control Equipment, Boilers, Power Plants, Sugar Plants, Distilleries, Factories, Industrial Water Treatment Facilities, and Bulk Material Handling Facilities. They have also developed strengths in Construction and address the requirements of a wide spectrum of industries namely power, fertilizer, sugar, oil & gas, petrochemicals, steel, cement, chemicals, railways, mines, and ports.

The company has a number of joint ventures as well as strategic technology partnerships with leading global firms. Isgtec ranks 220 in the Fortune India 500 listing, and 236 in the ET 500 listing.
