Isgec Hitachi Zosen Limited's footprint in global green energy initiative - bags order for critical Reactors for USA

July 07, 2021, Noida: Isgec Hitachi Zosen Limited received a prestigious order for the supply of 4 nos. Reactors of Vanadium Modified Low Alloy Steel, for a Renewable Energy project in USA. The scope of work includes mechanical design, material procurement, fabrication, testing, and supply of equipment.

This is the first order for Isgec Hitachi Zosen Ltd., India (a joint venture of Isgec Heavy Engineering Ltd., India and Hitachi Zosen Corporation, Japan) for supplying such Reactors to USA. The renewable energy project, which is under execution, will convert vegetable oils to synthetic transport fuels.

About Isgec Hitachi Zosen Limited

Isgec Hitachi Zosen is a joint venture of Isgec Heavy Engineering Limited (Isgec) & Hitachi Zosen Corporation, Japan (HITZ) located at the port town of Dahej, Gujarat on the west coast of India. Isgec is a leading Indian company with diversified engineering-led businesses of Process Equipment, Hydraulic & Mechanical Presses, Boilers, Iron & Steel Castings, Turnkey Projects in Power, Infrastructure, Air Pollution Control, and Sugar. HITZ are one of the leading fabricators of Process Equipment with a global track record of fabricating Reactors, Pressure Vessels, Ammonia Converters, Converter Internals, Tall Columns & other critical equipment.

The company is professionally managed with its board having equal representation from HITZ, as well as, Isgec.
